Explanation of info requested for entries	
File name(s):	This is the name of the JPEG image file you're submitting for this work, and which you created using the naming convention explained in the <b>Submission Details</b> . If this is a 2-D work, there'll be only one name here. If it's a 3-D work, list <u>all</u> file names.
Title:	Your title may be more literal or more interpretive, as you prefer. If you don't supply a title, we'll eventually provide one which simply identifies the subject.
Medium:	E.g., "oil on canvas," "digital photo print," "cast bronze," etc.
Final dimensions:	These are the dimensions of the work when fully prepared for display, with mat, frame, stand (if needed for a 3-D work), etc. If the work has not been prepared at the time you submit this form, please try to make your estimate of final dimensions accurate to within $\pm 10\%$ .
Botanical subject:	This is your best assessment, to whatever level of precision you can manage. Don't worry—the accuracy of your identification will <u>not</u> affect our evaluation of your work.
Location of subject:	Where did you find your subject growing? For most plant subjects, this info is <u>optional</u> . But for mosses, liverworts, hornworts and fungi (including lichens) this info is <u>required</u> and must be accurate to at least the county level, and for a county within the Finger Lakes region. Please see the "subject matter" requirements in the <b>Rules &amp; Guidelines</b> for further explanation.
